To inflate:
1. Press & turn valve stem to the left until it pops up.
2. Attach pressure gauge and hose to pump.
3. Inflate until rigid (up to 10 psi max) & insert cap.
4. Slide skegs into bases & secure with clip.

To deflate:
Press valve stem and turn the right to release. Stem will stay down & open.

Caution: WS4 Wave Slider is not a towable. Use of leash is recommended.
